3M

PANEL CONTROL & AND SOUND DAMPENING

Flexible Urethane Foam

A two-component, urethane, expanding foam that stops vibration and dampens sound in most voids.

- Excellent sound dampening qualities
- Stops panel flutter
- 10x volume expansion
- Does not require moisture to cure
- Will not distort panels
- Resists shrinking
- Bonds to most substrates

#39357
\$60.99

Rigid Urethane Foam

A two-component, urethane, expanding foam for filling pillars, posts, and box sections.

- 20x volume expansion
- Restores crash parts to OEM condition
- Superior expansion
- Reinforces weak panels
- Fast cure
- Bonds to most substrates

#39997
\$59.99

Panel Vibration Control

Epoxy/urethane blend for reducing noise & vibration on roof skins & intrusion beams.

- Dual-Mix Forever Warranty*
- OEM recommended
- Excellent sag resistance
- Reduces noise & vibration
- Protects against corrosion
- Exceptional flexibility

#39977
\$59.99

Rigid Pillar Foam

3M™ Rigid Pillar Foam is a two-part urethane material which foams in place (closed-cell foam). It can be applied to areas where OEMs recommend rigid foams such as pillars, sills, doors, floor pans, roof bows and other automotive body cavities. Use it wherever OEM rigid foam is found.

#08458
\$61.99

NVH Dampening Material

A flexible urethane adhesive-type material for replacing and re-installing factory NVH sealants and foams. This two-part material can be used to coat existing foams before reinstallation of outer body panels, or to fill thin gaps where foam cannot be used. Great for overhead or vertical surfaces, it cures to a flexible yet firm state and affords a 60-minute worktime.

#04274
\$62.99

Flexible Foam

two-part urethane material that expands to 10 times its liquid volume, creating a closed-cell foam that won't shrink and closely mimics OEM foam properties for insulation, sound-deadening and temperature resistance.

#08463
\$61.99

Sound Dampening Material

Sound dampening and sealing of: roof bows and roof skin, door skin and intrusion beam, quarter panel and inner structure, hoods and deck lids to inner structure. Ideal for overhead and vertical applications where a non-sag material is required.

#90985
\$60.29

Flexible Foam Super Fast

- Matches OEM sound deadening foams
- Retains its memory with no shrinkage
- Expands to 10 times its size
- Will not absorb moisture or cause corrosion

#90971
\$60.29
